

SONORRARI Sound Sensation with Biomonkey / Paul Lauerer Berlin

Berlin, Germany | 15. April 2017

BioHacker Berlin members discover the visceral experience of **SONORRARI**'s brand new all Sound Sensation machine. We were lucky enough to test it out at the low-carb paradise of Simply Keto. Want one?

Paul wrote "I am excited to confirm that **SONORRARI** (www.sonorrari.com) will be bringing two of the new Sound Sensation chairs, which uses music and binaural beats for all body vibration, which has all kinds of beneficial biohacking effects in theory: detoxing of the cells through the lymph system; flushing of stress hormones to reset the automatic nervous system; neurogenesis; psychosomatic...awareness i.e. bringing us out of our head and into our bodies, and much more. We can perhaps experiment throwing in the CES device at the same time 😊 I'll give it a go!"

Check out www.sonorrari.com

If you like to learn about new biohacking techniques, then come join us at BioMonkey and BioHacker Berlin on Meetup: <https://www.meetup.com/BioHackerBerlin>
